

PROGRAM SPOTLIGHT

I use ChatGPT every day. I still don't get how it works.

— *Common opener, free session attendees*

That's the most common thing we hear in the first ten minutes of a free session — from engineers, PMs, and students alike.

Using a tool daily and understanding it are two different skills. Almost nobody teaches the second one.

We run a free 2-hour live session that closes that gap — mental models, not tutorials.

**No credit card. No sales pitch.
