

PROGRAM SPOTLIGHT

I stopped asking AI to write my code. I started asking it to explain my bugs.

— *College Engineers cohort, 2026*

That's how one of our recent college-engineer cohort members described the shift.

My output didn't get faster. It got right the first time, more often.

That's the outcome we build toward —
judgment, not speed.

**A free 2-hour intro session — live,
and free to try.**
